S a certain dealer of the town of Jackson, A has advertised, that he sells goods at Ports mouth prizes, and then goes on to enumerate what those prices are. I wish to inform the publie, that I buy my goods in Portsmouth, and do not buy them at auction either. Neither do I pretend to sell them at cost, or 3/4c, per lb profit ei-ther. But will sell them as low as those who do. For instance, I will sell Molasses at 31 cts., per gallon, by the barrel, thereby saving 5 cts per gallon, on his prices to the consumer; Prime Rio coffee at 10% cts., by the sack; Whisky at 20% cts by the barrel, (and it shall not be more than half water at that.) I would say to those who wish to purchase Groceries, Dry Goods, Hardware, Queensware, Nails and Iron, which I From the distinguished Professor of themwill seil in quantities to suit purchasers, and at prices to suit the times. And relating to the subject of buying groceries at auction, I heard a certain person who resides in Jackson, and sells goods there, that he bought his groceries at auction, at Cincinnati, and that individual must himself judge whether he is a gentleman or not, on that subject I have nothing to say, let him de-cide the point himself.

All persons wishing to buy goods, would do well to call and examine his stock, as he is bound to sell, and will sell lower than those who spend so much of their time in blowing. ELISHA F. SWIFT. Cross Roads, May 19, '53-tf.

ROCK ROSE.

An Invaluable Remedy for all Scrofulus disea-ses, Indigestion, Salt Rheum, Sick Head-ache, Canker, Nursing Sore Mouth, and General Debility, and as a PURIFYER OF THE BLOOD, IS UNE-QUALLED.

The Rock Rose has gained a reputation, at home and abroad, which no other medicine has ever in the same length of time. According to the opinions of Eminent Physicians, the Rock Rose Plant is Unequalled IN CURING SCROFULA IN ITS VARIOUS FORMS

BUT WHAT IS THE ROCK ROSE! The following history of the Rock Rose plant and its medicinal properties, we take from the New Haven Palladium, March, 1852. "The increased interest manifested in the Rock Rose plant, in con-equence of the many wonderful cures effected by "Myers' Compound No. 1, Buckeye Block Extract of Rock Rose," calls for a brief history of it, in order to correct any erroneous opinion that may have been entertained concerning it; and also to set in a true light the nature of a plant which prompises to be universally benefit

It is entirely different from the common Rose. It is a red stemmed, oblong leaf plant, having a bitter taste. In addition to a remarkable pecu liarity of the plant, of bearing two crops of flowers in one seneon, it also has another interesting and beautiful prosperity.

DR. EATON Says that in the months of November and December, he has seen hundreds of these plants sending out near their roots, broad, thin, curved ice-crystals, about an inch in breadth, which melted during theday, and were renewed in the morning. For a more minute and analytical lescription of it, the reader is referred to Torrey & Gray's botanical works.

ITS MEDICAL HISTORY AND PROPERTIES Are far the most important, since upon these depends its value to the community. Dr. Lou-In says that in 1799 it was so valuable in Eng. land, that it was cultivated from seeds. Ever since 1806.

PROF. IVES, OF YALE COLLEGE, Has habitually used it with great success in Scrofula and Chronic Disease, and through him its virtues were made known, until, as Dr. Tyler says, "it is now in this section [New Haven] a common article in domestic practice for the cure of Scrolula and cutaneous diseases." He reports the following remarkable case of White Swelling of the hip, in Februrary 1844: The lad was seven years old, and had the disease for three years.— The bone was dislocated upward and outward There was a large opening on the hip leading to the bone, into which I could thrust my finger I counted three ulcers. He had been under sev eral physicians, who had given him up. I or dered a decoction of Rock Ross. In wo days his night sweats consed; I then ordered a tea speenful of Rock Rose three times a day. especially in children. Dr. S. Fuller, of Hartford, Ct. Administered the Rock Rose to a Scrofulous febeen applied without success. The disease was fully arrested by it.

Dr. D. A. Tyler, of New Haven Ct. Relates the following case. Mr. C., from a child, was afflicted with the Scrofula, and had also Glandular Sweitings on the neck. At the nge of 16 he was much worse; had eight abscesses on the neck, turee ulcers on the shoul der, and three on the hips. He consulted Drs Munson and Spalding of New Haven, but all to no purpose. In 1816, when forty years of age, Mr. Smith, a farmer from Long Island, observ ing Mr. C. with his head drawn on one side, and unable to labor, advised him to try the Rock Rose regularly, which he did for four weeks.— The ulcers broke, discharged and healed, and his head resumed its natural position, and he went

regularly to work. The value of the Rock Rose has also been set forth by Dr. Tyler, of New Haven, Ct., in a dis sertation avowedly prepared for that purpose, which afterwards, at the request of several of his medical brethren, was published in a pam

We quote from the preface. He says that since the delivery of this address, "the plant under consideration has been more fully tested, its virtues developed, its character better establish ed. neglected The Rock Rose is a plant of rare medicinal virtues, and unrivalled as a curative agent in Scrofulous diseases. I cannot but express the desire, inclosing this statement, that it may be lound to lessen the sufferings of our dec and dying humanity. EDWIN R. WARREN. New London, April 2, 1852.
